Ruggedized Computer Workstations, Displays and HMI®'s, with or without Touchscreens, for any special environment where Off-the-Shelf Computers will not operate reliably

For over 25 years HMW has served industry with computer products and solutions designed for process control, machine control, clean-room applications, food/beverage and pharmaceutical process monitoring, toll collection, hazardous environment applications (chemical and petrochemical), and others.

Computer units are available with CPU modules for all types of Windows Operating Systems and networking schemes. Displays can be equipped for remote operation.

Standard screen sizes are 10.4 in., 12 in., 15 in., and 18 in., (Larger sizes are quoted on request). High-resolution displays, high speed graphics, keyboard, mouse and Ethernet outputs are standard.
